

CHILD AND ADOLESCENT LEVEL OF CARE UTILIZATION SYSTEM (CALOCUS) DETERMINATION GRID

Level of Care Dimensions	Recovery Health Management	Outpatient	Intensive Outpatient	Intensively Integrated	Non-Secure 24-hour Services	Secure 24-hour Services
	Level 1	Level 2	Level 3	w/o 24-hour Psych Mon. Level 4	With Psych Monitoring Level 5	With Psych Management Level 6
I. Risk of Harm	2 or Less	2 or Less	3 or Less	3 or Less	④ 3	⑤ 4
II. Functional Status	2 or Less	2 or Less	3 or Less	3 or Less	④* 3	⑤ 4
III. Co-Morbidity	2 or Less	2 or Less	3 or Less	3 or Less	④* 3	⑤ 4
IV. A. Recovery Environment "Stress"	Sum of IV A + IV B is 4	Sum of IV A + IV B	Sum of IV A + IV B	3 or 4+	4 or more	4 or more
B. Recovery Environment Support	or Less	is 5 or Less	is 6 or Less	3 or Less	4 or more	4 or more
V. Resiliency & Treatment History	2 or Less	2 or Less	3 or Less	3 or 4+	3 or more	4 or more
VI. Acceptance & Engagement	2 or Less	2 or Less	E or Less	3 or 4+	3 or more	4 or more
Composite Rating	10 to 13	14 to 16	17 to 19	20 to 22	23 to 27	28 or more

○ Indicates independent criteria
 Requires admission to this level
 Circumstances regardless of composite score

* Unless sum of IV A and IV B equals 2
 + See text for special

Start by identifying any independent placement criteria. If there are independent placement criteria, assign the level accordingly. If no independent placement criteria, locate the composite score in the bottom row. Review the column above. If most items are consistent with the dimension scores, assign the individual to that level. If most items are inconsistent, move to the column where most items are consistent with the individual's dimension scores and apply that level.
